**INSPIRE CAREERS STUDENT PROFESSIONAL LAUNCH PROGRAM™
EXPERIENCE FEEDBACK FORM**

At Inspire Careers LLC, we strive to provide a completely positive experience for every individual that we serve. It is important that we know the quality of your experience and we would very much appreciate your feedback to help us continually fine-tune our service offerings and delivery to help us exceed our client’s expectations.

As a participant in the Inspire Careers Student Professional Launch Program™, please tell me....

Overall, how did the program meet your expectations for service(s) you received?

Exceeded my expectations Met my expectations Did not meet my expectations

Please explain. I was under the impression that this program would simply be an aid for assisting my job search and improving my resume. However, it turned out that Cathy’s mission was much greater than that. We developed a personal relationship where she gave me advice far beyond the resume and became a mentor of many things besides just a job search.

Why did you sign up to participate in this program originally and were your original expectations met?

I originally signed up to find a job when I had no idea what I wanted to do after college. My initial expectations were definitely met. Cathy takes a “hyper personalized” approach with her clients and spends an absurd amount of time to really understand her clients so she can help them in the best way possible.

How do you feel the strategies you learned will help you as you continue to develop Deliverex?

Cathy helped me understand the psychology of businesspeople throughout this program. Everything she does is to maximize the potential of her clients by understanding how people think, act, and respond. In this sense, she has helped me create more efficient strategies for marketing, connected me with incredibly helpful people, and helped me understand many of the fine details of how to start my business.

How did you feel your résumé compares with other résumés you have seen?

Many of the resumes I’ve seen include a generic template provided by my college. Additionally, many of the basic principles that Cathy informed me were crucial to a good resume are not found in my peers’ resumes most of the time. My resume is more clear, concise, and well organized.

What did you enjoy best about your experience (the coaching sessions, new resume, LinkedIn webinar, meeting with Don Tomasulo, Monday Motivational emails, Spotlight on Careers video? Why? Please be specific.

I would say the coaching sessions. This was where I was able organize my thoughts and ideas as well as be held accountable in my efforts from tasks given from the previous session. Additionally, the ideas I gained from Cathy proved absolutely vital to my success in the program. The chance to pinball ideas around with Cathy was a tremendous help in my program experience.

Continued...

Where there any parts of your experience in this program that you did not enjoy or believe could be improved?

Completely unbiasedly, I will say no. However, I can't compare it to other programs of similar nature since I've never partaken in anything else. I will say that I highly doubt anyone else could customize the program to the manner in which Cathy did. That being said, the things that I did not see value in were voiced and changed during my time in the program so that I received maximum value.

Would you recommend this program to a friend or fellow jobseeker or entrepreneur? Yes Why? Or Why not?

Besides Cathy's incredible expertise on the topic of job seeking and hiring, there is so much that the average person does not consider in this situation. This type of program should be a necessity for anyone looking to find a job where they feel truly fulfilled rather than settling on the first job to give an offer. The general importance of this type of program combined with Cathy's mastery of job seeking makes this program essential to anyone. The money spent on the program is made back almost instantly.

Please provide your overall feedback and thoughts about the program and partnership you received and mention anything I may not have asked specifically about.

To summarize my thoughts, I wasn't sure what to expect going into this program. But after finishing, it is clear this program has provided incredible potential to my entrepreneurial efforts. I changed my plans and didn't necessarily need some of the primary things offered in this program such as a resume, but the refining of the resume taught me how employers think and act. I can apply that knowledge to my daily life. Furthermore, I believe that I was certainly an anomaly in terms of clients Cathy has served. I'm pretty sure no other client changed their mind as much as I did. As it ended as me deciding to own a business, I can't imagine Cathy was prepared to take on a consulting role. Yet, she did so while offering tremendous value. She was able to roll with any punches throughout the program and is highly adaptable to the infinite possibilities that might take place throughout the program.
