Overall, how did the program meet your expectations for service(s) you received?

Exceeded my expectations Met my expectations Did not meet my expectations

Please explain:

Going into this program, I was expecting to get help with my resume and learn how to prepare for an interview. However, the activities I participated in and experiences I gained went above and beyond what I was expecting!

Why did you decide to participate in this program and were your original expectations met?

I decided to participate in this program because I had no idea where to start on my job search. I didn't know what to expect when it came to applying and interviewing for jobs in my desired field, or even where to apply. I also originally had a resume from the career services center at my college, but it was very bland, and I didn't think it would get me the attention I wanted. All of my expectations were met with flying colors as I got a revamped resume targeted towards my individual needs, and so much advice when it came to the applying and interviewing process!

How do you feel the strategies you learned will help you as you continue in your career?

A big takeaway from this program was learning how to market myself and stand strong as a person with a lot to offer. I'll definitely take this confidence into my new job!

How did you feel your résumé compares with other résumés you have seen?

My resume was customized to meet my individual needs. Cathy asked me if I had a specific theme or design in mind, and we worked together to perfect the "hospitality" pineapple theme that is so prominent in the tourism industry! I was so proud of the final product as I had never seen a resume look so vibrant, yet professional.

What did you enjoy best about your experience (the weekly coaching sessions, new resume, LinkedIn webinar, Monday Motivational emails, Spotlight on Careers video? Why? Please be specific.

I enjoyed the new, vibrant resume the most as I had no idea resumes could be custom designed as such. I also enjoyed the interview prep, as I found myself feeling very prepared and confident going into my interviews.

Where there any parts of your experience in this program that you did not enjoy or believe could be improved?
