As a participant in the Inspire Careers Student Professional Launch Program™, please tell me....

Overall, how did the program meet your expectations for service(s) you received?

Exceeded my expectations Met my expectations Did not meet my expectations

Please explain:

Because of Cathy, I was able to get a frickin CAREER. The resume was amazing. The interview tips really did get me the job. Additionally you stuck with me when I didn't feel comfortable doing some job 101 tasks.

Why did you sign up to participate in this program originally and were your original expectations met?

I signed up so that I could find a job that would kickstart a promising career with decent entry level pay. All of those things have been met so far.

How do you feel the strategies you learned will help you as you continue in your career?

One thing that's been instilled in me is to always be networking. I wish I had this service in college, and I know I'll have an edge in my career because of the networking mindset I now have.

How did you feel your résumé compares with other résumés you have seen?

Received many compliments from countless HR professionals.

What did you enjoy best about your experience (the weekly coaching sessions, new resume, TST Networking meeting, Monday Motivational emails, connecting with recruiters, Job Seeker Spotlight video)? Why? Please be specific.

I enjoyed the resume because it was awesome. I loved the networking meeting, because I got good experience talking with good people. I did enjoy the motivational emails, and I took them seriously especially during the dark times of my search. I did not enjoy the job seeker spotlight video just because that really isn't my style, though I see and agree with its benefits.

Where were any parts of your experience in this program that you did not enjoy or believe could be improved?

One thing that I think maybe I struggled with was knowing what I wanted to do. Ultimately I didn't want marketing, I wanted health plan, career path, money, good culture, in a certain location etc. I chose marketing because I thought it might be attainable. The WHAT didn't matter as much as the WHERE and the FOR WHOM. I think with the next nebulous student (I hope all your clients are better than me) you can guide them in choosing their career path a little bit. You know what these kids want much better than they do.

Would you recommend this program to a friend or fellow jobseeker? _____ Why? Or Why not?

I would recommend this program to a friend because you know what you're doing simply put. You know how the game works and that's that. Your guidance is the right way.

Please provide your overall feedback and thoughts about the program and partnership you received and mention anything I may not have asked specifically about.

If there's one thing that I really appreciated from you, but perhaps wasn't explicitly offered, it is the times you helped me word certain communications. Whether I was reaching out to someone on LinkedIn, writing a cover letter, or responding to a short email, YOUR WAY of wording things was always so perfect. I think future clients of yours would appreciate a 101 guide to professional communications or something of the sort. It got to the point where I really felt hopeless because of how skilled your communications were compared to my own. It's definitely a valuable skillset that made our time together worth the money.

Thank you for taking the time to share your feedback!
